Trust

## PROJECT DESCRIPTION

Hempstead on Main - This project is a 4-story residential project located on Long Island, NY. There are 2 levels of parking, one being below grade. The first level contains clubhouse and amenity areas. There are 4 levels of residential units of various types, for a total of 166 units. The residential units are constructed of prefabricated wood floor trusses supported on wood walls. The units are supported by a conventionally reinforced concrete transfer slab. The first floor retail space and the below grade parking levels are also conventionally reinforced concrete slabs.
